## Judith Gurley Plastic Surgery, LLC

14825 N. Outer Forty Road, Ste. 350  
Chesterfield, Mo. 63017  
636-812-4300 • [judithgurley.com](http://judithgurley.com)

**J**udith Gurley, MD, FACS, is a board-certified plastic surgeon and is a member of the American Society of Plastic Surgeons, The American Society for Aesthetic Plastic Surgery, The Association of Women Surgeons, St. Louis Area Plastic Surgeons and the Missouri State Medical Association, as well as a fellow of the American College of Surgeons.

**STAFF:** Suzie Massaro, RN; Colleen Bayer, RMA; Jennifer Bloss, esthetician; Denise Wilson, esthetician; and Andrea Hoerner, administrative assistant.

**AREAS OF EXPERTISE:** Dr. Gurley's practice offers a full range of plastic surgery and nonsurgical medical-spa services, including breast augmentation, reduction, and lifts; face, neck, and eyelid procedures; arm and body lifts; BOTOX®; dermal fillers; laser hair removal, and rejuvenating laser treatments for face, neck, and chest.

**PHILOSOPHY:** Dr. Gurley believes her patients deserve the best that plastic surgery has to offer. Body type, bone structure, and personal preferences are carefully considered and discussed during an initial consultation. She helps you visualize expected surgical outcomes, using a personalized sketch of your body contours. Her passion for art and beauty help her design procedures and treat patients with balance and symmetry, bringing out your own natural looks.

**WHAT'S NEW:** Dr. Gurley uses the most advanced techniques—including new fractional laser technology to promote collagen regeneration throughout the skin; ultrasonic and tumescent liposuction; and fat grafting, the body's most natural facial filler—to help each patient achieve her health and beauty goals.

**REWARDING EXPERIENCE:** "My reward is seeing my patients happy and satisfied with what they see," Dr. Gurley says.

**FREE ADVICE:** "Before choosing a surgeon, look at before and after photos," she says. "Have an understanding of each procedure, including benefits, risks, discomfort, downtime, and scarring."
