

Judith Gurley Plastic Surgery & Medical Spa

PLASTIC SURGERY

Beauty and science merge as board-certified plastic surgeon Dr. Judith Gurley aesthetically analyzes her patients. She considers each patient's unique bone, facial, and body structure and recognizes which changes will restore a youthful appearance, balance features, or improve contours. The concept "if all you have is a hammer, everyone looks like a nail" is unfortunately becoming popular in the aesthetic industry. Dr. Gurley's love of art, combined with an extensive base of training and knowledge, allows her to tailor her approach to her patients in order to produce exceptional results. From BOTOX® Cosmetic and lasers to fat grafting, liposuction, and breast augmentations, Dr. Gurley implements unique surgical and non-surgical solutions.

"If a patient wants to address stretch marks, hanging skin, or bulges, I am likely going to recommend surgery, because anything less would be a waste of time and money, and may lead to disappointment," says Dr. Gurley. "If a patient is looking for a minor, more delicate change, I might suggest an in-office procedure. We listen to our

patients and make recommendations that will satisfy them. If we cannot help them, we will gladly make a referral."

Dr. Gurley offers the latest advances in her field, such as platelet-rich plasma, which can be used to promote healing. Dr. Gurley and her staff are focused on practicing plastic surgery and cosmetic medicine in an extremely safe, sound, proven environment. She does not offer technology which has been found to be costly or ineffective. "There is an art to identifying which device is worth bringing into your practice," she says.

Dr. Gurley feels that plastic surgery includes so much more than just surgery. Her Chesterfield office is a relaxing place where science and luxury intertwine to create an environment that is soothing and comforting, yet innovative. At the heart of Dr. Gurley's practice and expertise lies the art of plastic and reconstructive surgery and the concept of sustainable wellness. Dr. Gurley draws upon her rigorous surgical training, special interest in art, and years of experience when designing and tailoring your new look. Dr. Gurley and her kind,

qualified staff invite questions and encourage dialogue to ensure your experience is positive and enjoyable.

Dr. Gurley is a member of the American Board of Plastic Surgery, the American Society of Aesthetic Plastic Surgeons, the American Society of Plastic Surgeons, and the Association of Women's Surgeons, among others, and has been board-certified in plastic surgery for 15 years.

If you are considering plastic surgery, Dr. Judith Gurley invites you to experience what truly distinguishes her as an outstanding board-certified plastic surgeon.
