

Judith Gurley Plastic Surgery & Medical Spa

Judith Gurley, MD, FACS

PLASTIC SURGERY

Judith Gurley, MD, FACS, has enjoyed her solo, private practice in Chesterfield for more than 10 years. She and her staff strive to deliver outstanding patient care and outcomes that exceed expectations.

"Our patients come first. It is truly an honor to be able to help them achieve their goals," says Dr. Gurley.

Dr. Gurley knows that every body is individual and unique and that different procedures affect each body in a slightly different manner. As she designs each patient's individually tailored plan, Dr. Gurley considers many factors, including body type, bone structure and personal preferences.

"I believe that every surgeon is like an artist," she says. "They have their own style, their own concept of beauty. And it's important for the patient, after first deciding which surgeons are reputable, to determine which one shares an idea of beauty most similar to their own."

It is a combination of her surgical skill and artistic background that assists her in molding you into a look and feel that fits you.

Dr. Gurley understands the complexities that patients encounter when they first set out as cosmetic surgery consumers. She is eager

to help them navigate through the constantly changing surgical and nonsurgical options available for both face and body. Because she spends so much one-on-one time with each patient, these discussions sometimes lead to a course of action entirely different from what the patient may have anticipated.

"A lot of times, there are other options they may not have considered which could prevent surgery, delay surgery or complement a surgery," says Dr. Gurley.

Combining treatments to deliver subtle, balanced enhancements that yield beautiful, natural-looking results is one of the most powerful services Dr. Gurley and her staff are able to offer. By utilizing various nonsurgical or surgical techniques together, she can achieve lasting results without having to resort to more aggressive options.

If you are considering plastic surgery, Dr. Gurley recommends that you know each surgeon's certifications (Dr. Gurley is certified by the American Board of Plastic Surgery), view photos of a surgeon's work and have an in-depth discussion of your goals with the surgeon. As Dr. Gurley says, cosmetic surgery is as much an art as it is a science.

In addition to being board-certified, Dr. Gurley is a member of the American Society of Plastic Surgeons, the American Medical Association, the American Society for Aesthetic Plastic Surgery and the Association of Women's Surgeons, among others.

KNOW BEFORE YOU GO

Before you choose a plastic surgeon, it's important to spend time analyzing their work. Dr. Gurley encourages patients to view many examples of a surgeon's work before proceeding with a treatment. Her before-and-after galleries feature real patients. See how she tailors surgery to each patient by visiting the gallery at judithgurley.com.
