

Judith Gurley Plastic Surgery & Medical Spa

PLASTIC SURGERY

Judith Gurley, MD, FACS

Dr. Judith Gurley focuses on you and your aesthetic ideal. You will have 100 percent of her undivided attention both in and out of the operating room. She brings surgical precision, artistic vision, and unparalleled compassion to her work. Dr. Gurley won't rush. She will focus.

"My goal is to obtain the most beautiful results possible, not by cutting corners, rather, I will hyper-focus on you and your anatomy," she says. It is this care, attention, and unwavering commitment to her patients, her practice, and the field of plastic surgery, that has attracted the confidence of St. Louisans for decades.

THE GURLEY DIFFERENCE: What sets Dr. Gurley apart and, frankly, what sets each plastic surgeon apart from one another is not only their technical abilities and skills, but it is also their aesthetic eye and their vision for beauty. "I look at every patient as my work of art. I am as committed to your post-surgical experience as I am to designing and executing your operation," says Dr. Gurley. It is this distinct combination of board-certified surgical skills and artistic aptitude that enable her to transform patients into the best version of themselves.

BODY OF WORK: Qualified surgeons are willing, and most likely eager, to share a significant number of examples and image galleries that demonstrate their skill and experience. Seeing a surgeon's portfolio of surgical work allows patients to determine if their idea of physical beauty aligns with their surgeon's idea. "The best way to discover if a doctor is right for you is to view their previous work," Dr. Gurley says. And patients who ensure a shared vision of beauty with their surgeon are less likely to need a revision in the future. Do it right the first time.

COSMETIC BREAST SURGERY: "We've taken plastic surgery of the breast to a whole new level," she says. "As a patient, you shouldn't settle for inexperience or inadequate results." Plastic surgery of the breast should positively and aesthetically improve the appearance of your entire body and bring it into balance. Dr. Gurley is Board Certified in plastic surgery and has specialized in cosmetic breast surgery for more than 20 years.
