PLASTIC SURGERY

Judith Gurley Plastic Surgery & Medical Spa is celebrating 15 years of providing individualized surgical and cosmetic treatments for women and men in the St. Louis area and surrounding Midwest states. As a board-certified plastic surgeon for 19 years and a member of the most acclaimed organizations—the American Society of Aesthetic Plastic Surgery, the American Society of Plastic Surgeons, and the American Board of Plastic Surgery, to name a few—Dr. Gurley brings experience, dedication, vision, and passion to her practice.

Cosmetic enhancements are on the rise, and thanks to immense advancements in surgical and non-surgical procedures, many options are available today. Dr. Gurley believes preventative measures at a younger age help keep a more youthful look. She considers herself a "surgeon artist," seeing anatomy and beauty in every patient. From breast, body, and face surgery to Botox, filler, laser, and fat grafting,

Dr. Gurley has helped thousands of patients make physical alterations that have immeasurably helped their overall well-being.

When finding the right plastic surgeon, her best advice is to know the surgeon's experience and work, which is most often reflected in online reviews and before and after photo galleries. Dr. Gurley encourages you to follow her on social media and visit her website to view her online gallery of before and after photos, read her blog, gain knowledge about procedures, and learn more about her background. There, you will also see patient video testimonials and reviews. Telephone or online inquiries are welcomed, where you will be promptly greeted by her knowledgeable office staff.

Dr. Gurley says, "I love to see how plastic surgery can 'liberate' people, so they can live their life to the fullest."

Curious about the latest is with breast implants? There's been a lot of controversy in the literature, and Dr. Gurley has simplified what she thinks is important for you to know in her blog post, *Breast Implants Aren't Going Away Anytime Soon*.
