

## Dr. Judith Gurley Plastic Surgery & Medical Spa

### PLASTIC SURGERY

Dr. Judith Gurley has provided St. Louis-area men and women with artistic plastic surgery, facial injections, medical spa services, and skin care for more than 20 years. As a board-certified plastic surgeon, Dr. Gurley brings experience, dedication, vision, and passion to her practice. Her patients are reassured by her unique philosophy, "No One Will Know... Everyone Will Notice."

Dr. Gurley considers herself a "surgeon artist," seeing anatomy and beauty in every patient. As a breast, body, and facial plastic surgeon, Dr. Gurley says, "I love to see how plastic surgery can help people, so they can live their life to the fullest. For many areas of the body, surgery is sometimes the only solution for improvement. Most patients don't know what they need to aesthetically look better, but they do know what bothers them. I take pride in helping my patients understand their options and coming up with a plan that is achievable and makes beautiful sense."

Passionate about creating natural facial beauty, Dr. Gurley prides herself on being the sole neurotoxin and filler injector in her practice. She uses Botox, Daxxify, RHA fillers, and more.

Integrated within the office, her results-driven medical spa offers laser enhancements, skin treatments, and her own medical-grade skin care line, Gurley Glow, which is available in her office and on [judithgurley.com](http://judithgurley.com)

Dr. Gurley encourages you to follow her on social media and visit her website to view photos of patient results, read her blogs, gain knowledge about procedures, shop skin care, and learn more about what Dr. Judith Gurley Plastic Surgery & Medical Spa has to offer.
