

Dr. Judith Gurley Plastic Surgery & Medical Spa

PLASTIC SURGERY

From surgery to skincare, Dr. Judith Gurley is redefining aesthetic care in St. Louis: expert, elevated, and entirely centered on you.

Board-certified by the American Board of Plastic Surgery and a Fellow of the American College of Surgeons, Dr. Gurley completed her fellowship training at Washington University School of Medicine where she later served as Assistant Professor of Plastic Surgery. An active member of The Aesthetic Society®, The American Society of Plastic Surgeons®, and St. Louis Society of Plastic Surgeons, she has contributed to numerous scientific papers and continues to mentor young doctors.

In her twenty five years of private practice, Dr. Gurley specializes in plastic surgery of the face, breast, and body, including drainless tummy tucks, breast lifts, revision procedures, and comprehensive mommy makeovers. Patients are drawn to the artistry reflected in her striking before-and-after gallery and her consistent five-star reviews. Guided by her philosophy, “No one will know. Everyone will notice™,” she exceeds patient expectations by restoring confidence and enhancing natural beauty through her surgical techniques. Dr. Gurley is known for truly listening to her patients and offering compassionate care before, during, and after surgery.

A pioneer in innovation, Dr. Gurley understands many patients prefer “natural products” to achieve “natural results.” She is one of the few surgeons in St. Louis offering Biofiller, which uses the body’s own natural components to restore volume. Regenerative therapies such as fat grafting, nano-fat, and liquid and solid PRF are central to Dr. Gurley’s forward-thinking approach—advancing healing, facial balancing, and rejuvenation in ways that define the future of aesthetics.

As an expert injector, Dr. Gurley performs all facial injections herself and is committed to her physician-led medspa. Thoughtfully formulated Gurley Glow® skincare is the foundation of her facial practice where she routinely employs Daxxify®, BOTOX® Cosmetic, Revance® RHA filler, Morpheus8, IPL, resurfacing lasers, and advanced spa treatments.
