

## Judith Gurley Plastic Surgery & Medical Spa

### PLASTIC SURGERY

Dr. Judith Gurley is a premier, board-certified female plastic surgeon with more than 25 years of experience. Trained at Washington University School of Medicine, where she also served as an assistant professor, she's contributed 18 peer-reviewed publications to her field and holds active memberships in the American Society of Plastic Surgeons, The Aesthetic Society, American Board of Plastic Surgery, and St. Louis Society of Plastic Surgery. Guided by her philosophy—*No One Will Know. Everyone Will Notice.*™—she pairs sharp medical skill with a careful eye for natural balance.

Her practice specializes in breast cosmetic surgery—including breast lifts, breast reductions, breast asymmetries, adolescent breast issues, tubular deformities, and breast augmentations—where she offers the highly sought-after Motiva breast implant. She's equally renowned for custom mommy makeovers, where she blends tummy tucks, mini tummy tucks, and liposuction for body contouring to create smooth, clean lines with minimal scarring. Dr. Gurley has perfected "wide awake plastic surgery" methods for select surgical procedures, which will soon include the innovative Preservé awake breast augmentation.

Her work also includes elegant facial rejuvenation, offering a refined mix of procedures like blepharoplasty, fat grafting, submental liposuction, and facial balancing for a refreshed, effortless look. Uniquely, Dr. Gurley personally performs all facial injections, pioneering advanced options like Daxxify® and the RHA® filler collection.

Alongside her surgical work is a state-of-the-art medical spa, which features a full complement of advanced lasers, non-surgical facial rejuvenation techniques, and relaxing spa treatments. It's also home to Gurley Glow®, her signature, medical-grade skin care line made to optimize results and keep skin healthy.

Dr. Gurley truly sets herself apart by focusing on patient safety, exceptional care, and the pursuit of absolute aesthetic excellence. It's a high-end, welcoming experience designed entirely around you.
