AESTHETICS & WELLNESS

NeoClear Post Treatment Instructions

Immediately following your treatment, your skin may feel slightly warm and may appear pink. This will subside within a couple of hours.

SPF 30+ is required to be worn throughout the duration of your treatments. We recommend **UV Clear by Elta MD**, sold in our offices. Follow your provider's instructions regarding all products that may be used the evening after your treatment. *Product recommendations may differ from patient to patient.*

To maintain the effects of the treatment, be sure to **keep anything that comes into contact with skin clean**. This includes make up applicators, cell phone screens, pillowcases, etc. It is also recommended that hair be pulled up and away from the face during sleep.

A series of 6 treatments is recommended for best results. These may be done 7-10 days apart. Subsequent treatments may be needed and individual results may vary. Maintenance may be necessary.

If you have any questions or concerns, please call our office during business hours (855) 522-4353.

During off hours, call Dr. Espinoza's cell at (908) 303-5694.
