AESTHETICS & WELLNESS

PICO Tattoo Removal Pre Treatment Instructions

-Please arrive to treatment with a clean skin, free of makeup and products in the treatment area. Also, remove all jewelry or piercings in the treatment area.

-Please avoid any sun exposure for at least 2 weeks prior to your treatment. Do not use self-tanners during this time, including spray tans, tanning lotions, tanning beds, or other artificial tanning methods. Natural or artificial tans can affect your results after treatment or cause burns and or scarring.

-Apply SPF 30+ sunblock to the area to be treated when exposed to the sun. Reapply every 2 hours. We recommend **Elta MD Sunscreens**, sold in our offices. **Shave the area to be treated** the day prior to or on the day of treatment if applicable.

If you have any questions or concerns, please call our offices at (855) 522-4353 and follow the prompt for your desired location. During off hours, call Dr. Espinoza's cell at (908) 303-5694. You can also email us at team@lachele.com
