MED SPA

PETAL + STEM

Petal + Stem Aesthetic & Longevity Institute is a physician-led medical spa redefining modern aesthetic care. The practice blends clinical expertise with an elevated, welcoming environment, dedicated to delivering results that are natural, transformative and always with a focus on long-term skin health. By combining the most advanced technologies with comprehensive, customized treatment plans, the clinic achieves a level of precision, safety, and personalization that sets it apart.

Led by Dr. Deepa Pai, Medical Director, a board-certified physician with more than 20 years of experience. Petal

+ Stem takes a distinctly medical approach to aesthetics with a focus on longevity and regenerative medicine. Dr. Pai, known as the "aging-architect," integrates hospital-grade ultrasound imaging with a highly individualized treatment philosophy, ensuring each patient's plan is thoughtfully designed and precisely executed. Every procedure incorporates tailored protocols to maximize comfort for each patient. Rooted in education, artistry, and trust, Petal + Stem delivers a sophisticated experience that enhances, but never overpowers, each patient's natural beauty.
